

OKLAHOMA HOUSING FINANCE AGENCY

Advantage Regulations: Reservations and OHFA Online

RE-01: Online Users

Effective 5/10/01

A username and password must be assigned to everyone eligible to use the Internet Reservation System. A list of Underwriters must also be provided for those lenders closing loans prior to Bond Approval. Each user must supply OHFA with a valid email address and a password. Requests for additions or deletions of users can be made on our website.

The username is always the user's first initial and last name as one word, with exception to duplicate usernames, and then another letter will be added.

OHFA will monitor the last login date of each user and if that date exceeds sixty (60) days of the opening of a bond program, the user will automatically be disabled. The user must contact OHFA to be reactivated.
